- Center for Interdisciplinary Research (ZiF), University of Bielefeld
- German Research Foundation (DFG)
- German Academic Exchange Service (DAAD)
- Alexander von Humboldt Foundation
- Volkswagen Foundation
- Rautenstrauch-Joest-Museum – Cultures of the World

THE a.r.t.e.s. GRADUATE SCHOOL FOR THE HUMANITIES COLOGNE

a.r.t.e.s. is the graduate school of the Faculty of Arts and Humanities at the University of Cologne, Germany. The unique scope of subjects offered by the faculty – one of the largest of its kind in Europe with 26 institutes, 14,000 students, 1,500 doctoral students, 870 faculty members, 165 professors and 370 university partnerships – creates ideal conditions for an intense, lively, and open-minded exchange for Early Career Researchers. The characteristic feature of a.r.t.e.s. is therefore its interdisciplinary orientation. Seeking to encourage dialogue between young researchers beyond their own disciplinary boundaries, it follows the vision of a concept of humanities that transcends the dichotomy of the arts and cultural sciences on the one side and the natural sciences on the other.

“ a.r.t.e.s. is the ideal medium for interdisciplinary communication!

Denise Hübner

THE a.r.t.e.s. RESEARCH LAB – A CENTRE FOR EARLY CAREER RESEARCHERS

The a.r.t.e.s. Research Lab serves as the Centre for Early Career Researchers of the Faculty of Arts and Humanities, offering students, doctoral candidates, postdoctoral researchers, and professors the opportunity to engage in conversation – either over a relaxing cup of tea or coffee in the lab lounge or in heated discussions at one of the numerous reading groups, workshops, summer schools, and conferences. In line with the basic objective of a.r.t.e.s., the Research Lab is an integrative, interdisciplinary, and international research organisation. Promoting an open exchange, the Research Lab provides a space to develop new and on-going research projects and foster the academic dialogue across career stages, disciplines, scientific communities, and nationalities. In short, it offers a vibrant location where we trace the transformations of life and knowledge that constantly take place.

The Lab functions as a working platform for numerous projects of participating scholars and for the discussion of innovative research in the humanities. Over the past years, postdoctoral researchers have successfully established internationally renowned research foci within philosophy and anthropology. With its academic networks and its unique atmosphere, it offers ideal working conditions for visiting fellows. a.r.t.e.s. is open for your initiative and for the development of new research foci.

BENEFITS & CHANCES FOR EARLY CAREER RESEARCHERS

- An affiliation with an internationally renowned institution
- A connection to current research at the University of Cologne
- A workplace with a study library in an interdisciplinary working environment
- Support in the organisation of workshops and conferences
- Assistance in the acquisition and management of external funding
- An international network with numerous partner institutions
- Access to various UoC services, e.g. Family Support and Postdoc Career Program
- Participation in a lively research environment with countless events

HOW TO BECOME A FELLOW:

You are about to complete your doctorate or are already a postdoc? And you have an innovative project fitting the profile of the Lab, which is already self-financed or about to be submitted? To connect your research project to the a.r.t.e.s. Graduate School and become a Fellow of the Research Lab, please contact us at artes-fellows@uni-koeln.de.

”

A postdoctoral humanities lab as a career incubator.

Dr. David Sittler

”

With its open environment a.r.t.e.s. provides the ideal structure for working on an interdisciplinary research project.
